

akeron

akeron crown cork catchers available in two different styles.

Above is the under counter type of catcher with slide. Available in metal (bronze or grey hammer finish) or strong moulded plastic.

Shown left is the vertical pillar type of catcher. An extremely useful addition to any busy bar, hotel or club etc.

Our crown cork catchers are essential to maintaining efficiency and cleanliness behind the bar. Carelessly discarded bottle tops look untidy and can be dangerous if stepped on. Both types of catcher are non chip and impervious to moisture.

*akeron.....quality, safety
and value built in.*
